2016 GOVERNOR'S AWARD FOR QUALITY AND PRODUCTIVITY

Program Description

The Governor's Award for Quality and Productivity (GAQP) is a team award recognizing service excellence, efficiency, innovation, technology, process improvement, and employee development in Missouri State Government. Teams employed by the State of Missouri, who successfully complete a project with another section, division, department, agency or community organization, are eligible to submit a nomination.

Nominations must provide documentation which may include, but is not limited to, background information, procedures, and measurable impact of the project nominated. All winning projects must meet established requirements of effectiveness, responsiveness, and efficiency of such quality that would make the project a model of excellence in state government nationally.

The GAQP through the Years

The GAQP was originally established in 1988. At that time, nominations could be submitted for a project that was completed and received department/agency approval. The nominations were reviewed by a Selection Committee based on a set of criteria. Award winners were identified, and sometimes multiple winners were awarded in one criteria area.

Improvements continued to be made to the GAQP over the years. In 2001, the use of specific award categories was introduced. Although this change enhanced and strengthened the GAQP process, more than one team could still be selected as a winner in each category. In 2005, the Selection Committee revised the selection process to only select and award one team project per category. The most recent enhancement to the GAQP program was the implementation of the Pinnacle Award in 2010. The Pinnacle Award is not available for nomination. It is only used (recommended) by the Selection Committee if, in their opinion, the nomination clearly encompasses multiple award categories in a manner that exemplifies the spirit of the Governor's Award, or exceeds all other nominations.

Today the GAQP may recognize one winning team in the categories of: Customer Service, Efficiency/Process Improvement, Innovation, and Technology in Government, to serve as a model of efficiency, quality, and effectiveness for other work teams in Missouri State Government to follow.

This year, nominations were received for consideration representing six (6) state agencies and several community partners. Today we recognize and congratulate each winning team.

2016 GOVERNOR'S AWARD FOR QUALITY AND PRODUCTIVITY

SCHEDULE OF EVENTS

WELCOME AND RECOGNITION OF DIGNITARIES

EMCEE

Doug Nelson, Commissioner, Office of Administration

PRESENTATION OF COLORS

Central Region Color Guard – Department of Corrections

SINGING OF THE NATIONAL ANTHEM

Wanda Seeney

Public Information Officer/Community Outreach and Marketing Director
Commissioner's Office
Office of Administration

Tuck Van Dyne

Chief, Office on Women's Health
Department of Health and Senior Services

Debra Walker

Director, Office of Public and Legislative Affairs
Department of Mental Health

2016 GOVERNOR'S AWARD FOR QUALITY AND PRODUCTIVITY

WINNING TEAMS

EFFICIENCY/PROCESS IMPROVEMENT

Department of Public Safety (DPS), Missouri State Highway Patrol (MSHP)

Team Members

Pam Aberle (MSHP)	Ryan Badresingh (MSHP)	Sandy Bexten (MSHP)
Howard Carter (MSHP)	Kerry Creach (MSHP)	David Donaldson (CPI)
Lt. Steve Frisbie (MSHP)	Holly Haarman (MSHP)	Valerie Hampton (MSHP)
Carol Kampeter (MSHP)	Michael Khan (CPI)	Tim Love (MSHP)
Linda Lueckenhoff (MSHP)	Maria Martinez (CPI)	Capt. Larry Plunkett (MSHP)
J.D. Reece (MSHP)	Greg Roberts (CPI)	Erik Snyder (CPI)
Kevin Thurman (MSHP)	George Wang (CPI)	

Each year, the average person puts their life, or the lives of those they love, under the responsibility and care of countless strangers whom they have never met. Positions of trust such as nurses, teachers, foster parents, pharmacy technicians, and police officers all have a powerful influence over our lives and many times have access to our personal data. Due to these factors, timely and accurate background checks of those in position of trust have become as important as ever.

Prior to the MACHS Fingerprint Portal, agencies and applicants had to wait ten days or more to receive the results of their fingerprint background checks. This wait time delayed all hiring/licensing decisions for these agencies and thereby reduced the effectiveness of applicant processes. With the implementation of the MACHS Fingerprint Portal, agencies and applicants may now receive background check results in a greatly expedited manner.

Very few states have the ability to electronically return fingerprint-based background check information due to the unique challenges it presents, and the MACHS Fingerprint Portal team had to create a new system from the ground-up while modifying and enhancing functionality of existing systems. All work was performed in combination with contract personnel.

This process improvement has led to an increase in efficiency that has not only saved the state countless man-hours due to the automated nature of the system, it also ensures that positions of trust can be cleared in a timely manner, thereby making Missouri a safer place to live, work, and visit.

For additional information on this team's accomplishment contact Mary Beckwith at Mary.Beckwith@dps.mo.gov or 573-751-5424.
